How does the actual condition of the nets compare to our expectations?

Overall assessment:

Very Good

Action recommendations:

1. Further nets required

- to achieve universal coverage/replace unusable nets
- to all sleeping spaces in community as majority of existing nets now at end of useful life

* This survey was performed on a random sample of households to which nets were distributed. The data has been collated from each of the forms, where meaningful, and summarised above. The original documents are available upon request.
