

Post Distribution Survey*

Maryland, Sinoe, Liberia

Distributed by Merlin

Completed: Apr 2008

6 month survey

Carried out: 24 Jul 2010

Households surveyed: 45 (45 used)

Q1. How many nets were in the surveyed households?

87

How many were supplied by Against Malaria?

87

Q2. Are they being used at night?

Yes	No
95% (38)	5% (2)

■ Yes
■ No

Q3. Are they being used correctly?

Yes	No
80% (32)	20% (8)

■ Yes
■ No

Q4. What is the condition of the nets?

Very good	OK	Poor
28% (24)	55% (48)	17% (15)

■ Very good
■ OK
■ Poor

The following question relates to the coverage of sleeping spaces by any nets, regardless of origin.

This provides an indication of how many nets are still needed to achieve universal coverage.

Q5. What is the overall net coverage of sleeping spaces?

With nets	Without nets
47% (87)	53% (98)

■ % With nets
■ %Without nets

Action recommendations:

1. Additional malaria education

- encourage all nets to be hung. Target: 95%+
- emphasise net care
- demonstrate and remind of correct net usage
- message: all sleeping spaces covered helps them all
- involve community leaders and all community
- whole community address

2. Revisit houses with 'net, but not hung' one month later

3. Further nets required

- to achieve universal coverage/replace unusable nets
- to all sleeping spaces in community as majority of existing nets now at end of useful life

* This survey was performed on a random sample of households to which nets were distributed. The data has been collated from each of the forms, where meaningful, and summarised above. The original documents are available upon request.
