

A Gift Against Malaria

At least 600,000 people die of malaria each year
The children that will die today from malaria would fill 4 jumbo jets

The single most effective means of prevention is a mosquito net
Each long lasting insecticidal net (LLIN) - the net of choice - costs US\$ 3

We promise...

- 100% of the money we receive will buy long-lasting insecticidal nets
- and they are put over heads and beds
- and we demonstrate that has happened.
