

## Summary

# of LLINS	Country	Location	When	By whom
100,000	Tanzania	Boarding schools, nationwide	May-Oct 08	Rotary Tanzania and PSI Tanzania

## Further Information

1. Please describe the specific **locations & villages** to receive nets and the number to each? Please provide longitude/latitude information. (Important note: If the distribution is approved, approval will be for the nets to be distribution to these specific locations. Location changes will only be considered, and may be refused, if due to exceptional/unforeseen circumstances.)

Please see the detailed list attached. Approximately 150-200 boarding schools, educating some of the poorest students in the country (boarding school in Tanzania are not like some Western boarding schools where students can be more privileged) will receive nets. The nets will be donated to the boarding schools and will remain with the schools so as to protects all students at the school for the lifetime of the nets.

2. Is this an **urban or rural** area and how many people live in this specific area?

The distribution is country-wide so covers a variety of environments. The majority of settings are rural.

3. Is this a **high risk malaria area**? If yes, why do you designate it as high?

Tanzania is largely high risk for malaria. All schools will be in areas at risk from malaria, albeit some will me in moderate risk areas, others in high risk areas.

4. How many **reported cases of malaria** and **malaria deaths** were there in this area in 2005? If you do not have statistics please make a qualitative comment.

Statistics would be difficult to present here due to the nationwide nature of the distribution. It is fair and accurate to comment that the schools will all fall in areas at risk of malaria with significant malaria cases, and deaths, occur.

5. Is this distribution of nets **'blanket coverage'** of an area/village or to a **select/vulnerable group**? If the latter, please describe this group.

The distribution will achieve blanket coverage at each school: all sleeping spaces will be covered.

**6. What is the existing level of ITN use in this area? Are there existing bednet distribution programmes in this area?**

In general the existence of any sort of net is low. However, in the pre-distribution questionnaires, attached in both English and Kiswahili, circulated to all candidate schools, the level of existing bednet use is assessed and will be taken into account in calculating the number of nets needed at each school. If a non-LLIN exists at a school the policy will be to replace it with an LLIN. The same approach will be taken with damaged nets.

**7. Why was the area/villages chosen for bednet distribution and who made this decision? Please provide the name, position and organisation of the person/s making the decision.**

This distribution focuses on boarding schools. This category of institution has not been targeted by existing national campaigns and is one the National Malaria Control Programme (NMCP) is happy to see as a recipient of free nets. Please note the context here is a general policy of the NMCP in Tanzania (as at June 2007) of not giving out nets for free unless to hospitals, boarding schools, prisons and selected other groups.

This is as a result of the well-developed social marketing programmes for bednets, coordinated by the NMCP and the bednet unit, NatNets, which has been a focus of NMCP activity as they attempt to significantly increase net usage in Tanzania. Free-to-recipients bednet distributions therefore are directed to avoid harming the social marketing programmes. Our distribution respects that constraint.

**8. Have you consulted with the National Malaria Programme in your country about this distribution and what was their response? Please provide the name, position and contact details of the person/s with whom you have liaised.**

Yes, closely. They are delighted with the distribution of 100,000 nets to children in need. Our lead contact at NatNets, the NMCP bednet unit is Nick Brown, ITN Cell Team Leader (NETCELL), nick.brown AT natnets.org, +255 (22) 2124977, Ministry of Health and Social Welfare, Ocean Rd, NIMR Complex-CEEMI Bldg, P.O. Box 3430, Dar-Es-Salaam, Tanzania.

**9. Please describe any pre-distribution activity, in particular how the size of the target group and number of nets required will be ascertained?**

There is significant pre-distribution activity involving Rotary Canada (leading fundraising for the nets; inviting and coordinating the involvement of Rotary clubs across Tanzania), PSI Tanzania (coordinating, with Rotary Tanzania, the logistics of the net distributions and all pre, during and post-distribution activities) and the Against Malaria Foundation (coordinating discussions between all parties as well as the Tanzanian Ministry of Education and the NMCP).

The pre-distribution activity has the following components:

a) Liaising with school e.g.:

- gathering relevant quantitative information (numbers of pupils/bed types etc)
- all necessary liaising pre-distribution with school head to agree: day/time of distribution; preparation required at school ie any role play activity, staff and pupils available; who will lead malaria education talk; decide on plan for hanging nets etc

b) Preparing materials to be handed out with net e.g. malaria educational material; net usage and care instructions. Preparing plans for bednet role play ie a 'skit', potentially involving students, of sleeping without a net and being bitten by mosquitoes (students dressed up as mosquitoes) and then sleeping under a net and the same mosquitoes touching the net and ending up on back with legs and arms in the air. Drives home in humorous way the correct use and impact of the net.

c) Preparing for delivery of nets to site

- liaising with net supplier re number of nets to which location
- provision of transport for movement of nets from AtoZ to major town/distribution 'hub' point (AtoZ may do this - to be confirmed)
- provision of secure storage at 'hub' point before nets onward transported to site
- provision of transport for movement of nets to distribution site eg school
- ensuring on time delivery

d) Liaising between PSI and Rotary Tanzania centrally as well as PSI/Rotary locally

- establishing which Rotary clubs in Tanzania can be involved in the distributions and in what way for each individual club
- establishing the local teams involved in each distribution
- ensuring cameras, both for digital and video footage, are available for all distributions to ensure the distributions are recorded.

**10. Please describe how the bednets will be distributed, by whom, whether distribution will be a focussed effort or part of a combined programme and if there will be an information/education component to the distribution? Please indicate over what time period (typically, the number of days or weeks) the distribution will occur.**

Nets will be transported to each school site on pre-arranged days, established with the school heads. The net distribution activities will be led by Rotarians in Tanzania with significant work and support from PSI Tanzania staff.

The distributions, with the help of the school staff and students, will include:

- Malaria education talk; malaria/bednet role play 'show'
- Handout nets (NB: packaging around individual nets will be removed and taken away)
- Help with putting up nets
- At least 40 digital photographs taken per school plus 5-10 minutes of video footage.

- Record keeping at distribution: names of all receiving nets (even though nets are being given to school).

**11. What [post-distribution follow-up](#) is planned to assess the level of usage (hang-up percentage) of the nets? How long after the distribution will this assessment take place? Will you provide us with the findings? What will you be able to do subsequently to increase net hang-up if relevant?**

Each school will be visited within 3 months to ensure all nets re hanging and being used.

**12. Please give the name and contact information for the (government) head of the [district health management team](#) for the/each area. Please ensure you include contact information.**

This is being coordinated through NatNets (NMCP).

**13. Please confirm the nets will be distributed [free-to-recipients](#), a requirement for us to fund nets.**

Confirmed.

**14. Please confirm you will send us, post-distribution, at least [40 digital photos per sub-location](#), taken at the distribution/s, to be added to our website as we report on the distribution to donors.\***

Confirmed.

**15. Please indicate if you will be able to provide [video footage](#) from each sub-location. This is not mandatory but is preferred and aids reporting to donors and encourages further donor giving.\***

Confirmed.

**16. Please confirm you will send a [Post-Distribution Summary](#) when the distribution is complete.\***

Confirmed.

**17. Please provide your name, role and organisation and [full contact information](#).**

## 1. ANWANI YA SHULE

Tafadhali jaza anwani ya shule kwa usahihi kama ilivyoelekezwa hapo chini.

**Jina la shule**

.....

**Anwani ya shule**

.....

.....

**Nambari ya simu**

.....

**Jina la Mkuu wa Shule**

.....

**Barua pepe kama ipo**

.....

## 2. Idadi ya wanafunzi na aina ya vitanda

Kuna wanafunzi wangapi wanaolala shuleni?

.....

Kuna wanafunzi wangapi wa kutwa?

.....

Kuna jumla ya vitanda vingapi na vya aina gani?\*

Cha mtu mmoja

.....

Cha ngazi moja

.....

Cha ngazi mbili

.....

*\*Angalizo: Kama kuna vitanda 20 vya ngazi basi utahitaji vyandarua 20 sio 40 hivyo muwe makini katika ujazaji wa idadi ya vitanda*

## 3. VYANDARUA

Je, shule ina vyandarua tayari?

Ndio / Hapana (chagua moja)

Kama ndio: Je ni vingapi?

.....

Aina gani? Havijawekwa dawa / Vimewekwa dawa / Sifahamu

Vimenunuliwa lini? Miezi 1 - 12 / Zaidi ya mwaka mmoja / Sifahamu

Kama vimenunuliwa nyakati tofauti tafadhali weka idadi yake? ..... ..

**Ukimali kujaza tafadhali itume hii fomu kwenye anwani iliyo hapo chini:**

Mary Mwanjelwa  
PSI Tanzania  
Plot 63/27  
Bibi Titi Mohamed Road  
P. O. Box 33500  
Dar es Salaam, Tanzania

**Q1. SCHOOL CONTACT INFORMATION**

Please add the information requested.

**Name of School**

.....

**Full address**

.....

.....

.....

**Tel number**

.....

**Headteacher**

.....

**Contact email address**

.....

**Q2. PUPIL NUMBERS and BED TYPES**

How many boarding pupils are there at your school? .....

How many non-boarding pupils are there at your school? .....

How many beds of each type are at the school?\*

Single beds .....

*\*Note: If you have 20 2 tier bunk beds that 40 students sleep in, please enter this as '20', not 40.*

Bunk beds (2 tier) .....

Bunk beds (3 tier) .....

**Q3. MOSQUITO NETS**

Do you have some mosquito nets in the school already? Yes / No (circle one)

If yes: How many in total? .....

What type are they? Don't know / Untreated nets / Insecticide treated nets (ITNs)

How old are they? Don't know / 1 year or less / More than 1 year

If different ages, number of each? ..... .....

**Please post this completed page to:**

Mary Mwanjelwa  
PSI Tanzania  
Plot 63/27  
Bibi Titi Mohamed Road  
P. O. Box 33500  
Dar es Salaam

**THANK YOU!**
