Action recommendations:

1. Additional malaria education

- encourage all nets to be hung. Target: 95%+
- emphasise net care
- demonstrate and remind of correct net usage
- message: all sleeping spaces covered helps them all
- involve community leaders and all community
- whole community address

2. Revisit houses with 'net, but not hung' one month later

* This survey was performed on a random sample of households to which nets were distributed. The data has been collated from each of the forms, where meaningful, and summarised above. The original documents are available upon request.
